# Uber Hacks

---

Group 5: Pei-Ling Chiang , Fang Shao,  
Aradhy Sharma, Jiaqi Sun

# Background

Time: October 2016.

People affected: 57 million  
customers and drivers

Event: Hackers stole personal  
data stored in Uber

Information included:

- (1) names, email addresses and phone numbers, as well as driver's license numbers.
- (2) location data, credit card numbers, bank account numbers, social security numbers, and birth dates.

## Main Issue

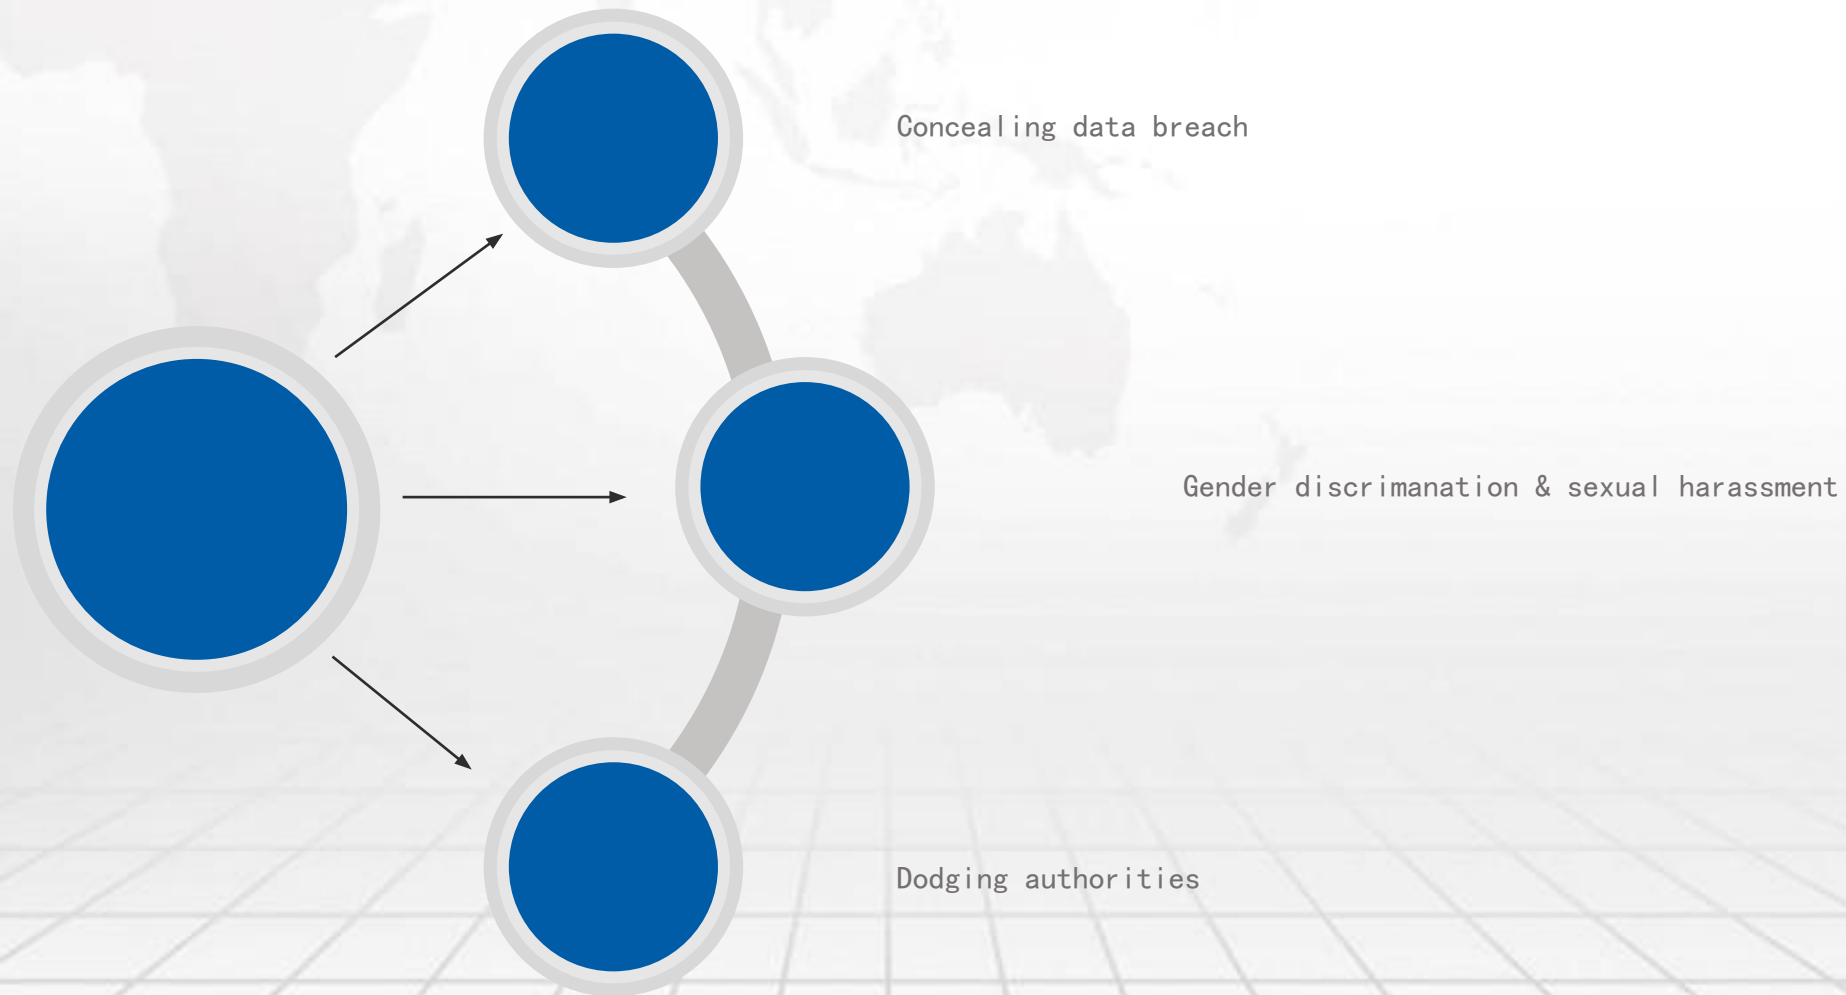

Uber paid the hackers to delete the data and keep the breach quiet.

1

Uber failed to notify state residents and inform the attorney.

2
