

Team Details –

Name	NUID	Contribution
Priyanka Chaudhari	001007299	Create 1-2 modules (approx. 5-6 entities), generate 2 reports and presentation
Ankita Senapati	001003695	Create 1-2 modules (approx. 5-6 entities), generate 2 reports, presentation
Aaradhy Sharma	001040799	Create 1-2 modules (approx. 5-6 entities), generate 2 reports, presentation

Project Topic –

Inter-University Connect

Problem statement –

International Students in the US are keen to network with domestic or other International students. In order to do so, they register themselves in different platforms to connect through events, search for alumni, jobs, etc. They need to be equally active on all platforms and manage them separately.

Objectives –

Considering the above challenge faced by students, we intend to build a Inter-University connect platform, enabling students to socially network for a broader spectrum. They can have access to the following features-

- Hosting and attending events
- Alumni connect
- Accommodation connects
- Connect with students from other universities
