Career Goal Story Line

Sharma Aaradhy

NUID 001040799

Section I: Educational Background & Previous Professional Experience
I have an undergraduate degree in Computer Science from Indore Institute of Science and Technology Other than That I have worked as an intern at Diaspark which is a CMMI level 5 company from December 2019 to March 2020. there I Have learned a lot about cloud computing, SSIS, SQL, etc.
Currently, I am Enrolled as a Graduate Student for Information System at the College Of Engineering

Section II: Co-op Position / First Job
My Ideal First COOP would be the summer Internship at Citrix as Citrix has Leadership in cloud Computing one can have a great learning experience as a data analyst Intern, I will be taking DMDD subject next semester as SQL taught in DMDD would be highly beneficial
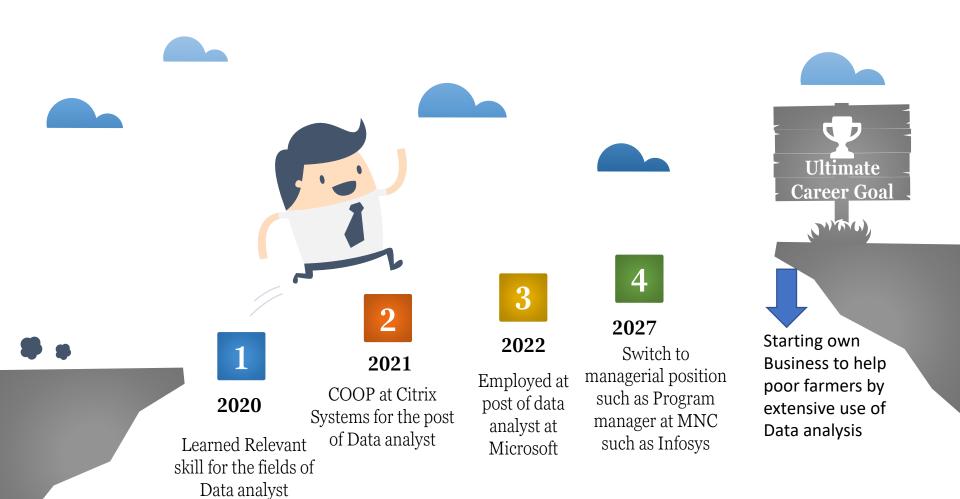

Section III: Intermediate Career Goal
In the next 5 to 10 years I will Switch to a position such as a Program Manager I opt to have skills in SQL, Python Power BI, Azure as well as in the managerial Field.

Section IV: Ultimate Career Goal
My Ultimate Career Goal will Be to open a Business that can use
 Ai to solve the needs of poor such as Irrigation for Farmers or use of BI to handle Database of Daily wagers.
